**Care and use:** Remove elastic straps, open valve, allow air to flow in, close valve, done! Prior to initial use, the pillow should be fully inflated once by mouth, so that the filling can expand completely.

**Use as a bolster:** Roll the inflated pillow together so that the bottom is facing inwards then close zipper **A** completely.

For packing, open the valve, roll up the pillow in the direction of the valve, close the valve and pull over the elastic straps. To avoid mould, never roll up the pillow in wet or damp conditions.

Please clean only with a damp cloth and mild soap. When doing so, close the valve so that no water gets inside. Do not clean in the washing machine. Do not use or store near open flames or furnaces. To protect from damage, do not use the product on rocky surfaces. The pillow must not be used in water or for swimming. It does not provide any support on the surface of water and is not a swimming aid. Saltwater and chlorine water will damage the fabric surface. Please repair minor damages with a suitable repair set.

- Suitable for persons up to 80 kg
- **WARNING!** Do not use for swimming.
- Self-inflating! Inflating with pressure is not necessary.
